## BORN TO DRIVE

Lewis Hamilton, 15, started karting when he was eight years old. He was clearly born to drive, because by the age of ten, he was British Junior Champion – the youngest champion ever ! At 13, he started kart racing internationally, and one year later, he signed a ten-year contract with Mc Laren Mercedes, the famous Formula One racing team. They plan to help  
5 Lewis become a Formula One driver.

Lewis lives in England but races in Italy every weekend during the karting season. So he gets up at 6.30 on Mondays to Thursdays to have **extra** school lessons at home. He goes to school from 9 a.m. to 4 p.m., and after doing his homework, he does his fitness training. He also studies Italian, because he spends a lot of time in Italy.

10 On Thursday evenings, Lewis starts his « other » life. He gets on a plane to Italy. Fridays are spent testing his kart, Saturdays doing the qualifying rounds and Sundays are race days. Then it's back on the plane to start school again on Monday !

**Although** Lewis travels to Italy alone, he can't drive to the airport. He must wait till he is 17 to get his driving licence. But he has driven a Mercedes sports car on a **race track** at  
15 225 km per hour ! His dad, in the passenger seat, was terrified !
