## III - PRODUCTION (BEP seulement) (3 pts)

6. "Roller-skating" is different from "skateboarding".

Give 3 reasons why you like (or don't like) skateboarding. (50 mots).

### Exemple :

I think skateboarding is a very funny / interesting / dangerous sport.

You can roll along roads or on pavements with friends and go anywhere. You feel free when you are riding this way.

But it can also be dangerous because you can fall and hurt yourself. You may also run people down and hurt them too. So I think it should be better regulated with recreation areas and fitted laws. Moreover, people should be more careful.
