Will you give 7p a day just £2 a month, to help Save the Children

Dear Friend.

Several pence seems such a tiny amount doesn't in? Little more than small change, hardly worth bothering about. But for a child in Africa, Asia on South American, 7p could quite literally be the difference between life and death.

That's why I would like to ask you support Save the Children with a donation of 7p a day - that's just £2 a month However small this amount may seem to you, it can make a tremendous difference.

Severi pence a day can help Save the Children to be ready and able to respond whenever disaster strikes. Helping us to provide fond, medical care and shelter for children caught up in natural disaster, political unrest or the bloody violence of war.

Just £2 a month from you can help Save the Children to bring safe, clean water to an isolated community in Africa Giving families the chance to escape from the threat of diarrhoea the single biggest killer of infants worldwide - which steals the lives of many thousands of young children every day.

Your £2 a month can help us to protide children with the food they need to grow up fit and strong, as well as medical care to keep them healthy and resilient. And it can provide too the education children need to learn the skills that will equip them for the years ahead.

There are so many thousands of children we can help, so very many young lives we can help change for the better. Please will you join us in partnership by pledging a donation of £2 a month? Join Save the Children in supporting children in over 50 countries around the world and help us to give them the happy, healthy and secure lives that should be theirs by right!

Thank you

Yours sincerely,

John Kingston Director
